

# CAM Release Notes

Sprint 2021.02.1.2

04/19/2021

---

## Enhancement

### Template Editor

- CAM now inherited email metadata from the email parent folder to all created subfolders in iManage and NetDocuments. E.g., Sub folder created under email folder, email properties inherited to all sub folder programmatically.

Note: Prosperoware recommends using @folderid@ for email address for iManage

## Resolved Issues

### Account Management

- Group membership job failed to update in multiple databases when user created/presented in multiple databases. (Cloud-9281)

### Known Issues

- Folders copied from one template to another retain a link to previously created folders using that template. (Cloud-8208)
- Could not delete 'Saved Search' folders from Apply to workspace and Reassign template. (Cloud-8614)

## Notes

Prosperoware does not recommend using non-alpha-numeric or special characters within metadata fields. The following special characters include: "?" | "=" | ", ". The iManage API may not return any results when searching for workspaces or documents containing this metadata.
